## How your policy works

With Flexible Choice, you can choose either a Cancer or a Heart Attack & Stroke insurance policy. Or for an additional premium you can add a rider that gives you coverage for both Cancer and Heart Attack & Stroke.

You can also customize your coverage (for an additional premium) by adding a rider for **Recurrence** benefit coverage, in case you receive a subsequent cancer diagnosis.

# Adding extra value

Sometimes life throws you a curve ball. We offer extra coverage that can help protect you when you need it most. With our base policies, you have the flexibility to add on riders for an additional premium.

## **Return of Premium Rider**

(Form #LY-ROP-D)

Our return of premium rider can give you some peace of mind should your policy go unused at the time of death. Your loved ones could receive 100% of all premiums paid (policy and riders) from the rider effective date, less claims paid, as long as the policy is paid up and in force when you pass.

# Cancer insurance

A Cancer insurance policy can help pay for treatment costs or any other expenses. So you can focus on your recovery – instead of your financial situation.

## Your Cancer policy

A Flexible Choice Cancer insurance policy pays 100% of your selected benefit amount – from \$5,000 to \$100,000 – if you are diagnosed with cancer while your policy is in force.

Lump-sum cancer coverage	% of selected benefit amount
Cancer	100%
Carcinoma in situ	

You can use this money to help pay medical expenses or for any other purpose.

**This coverage is also available as a rider on a Flexible Choice Heart Attack & Stroke policy.**  
 (Rider form series #LY-LSC-RD-ID)

## Cancer Recurrence Benefit Rider

(Form #LY-CR-RD-ID)

If you are concerned about your cancer returning, our cancer recurrence benefit rider<sup>3</sup> may pay a percentage of your selected benefit amount (not to exceed an additional 100%). Benefits are payable as long as you have not received advice or treatment for at least two years from the date of your last cancer diagnosis.

3. Coverage must be in force.

## Meet Elizabeth

Elizabeth is a teacher at a local elementary school. During a regular self-exam, she felt something on her breast and scheduled an appointment with her doctor. She was diagnosed with breast cancer. Three years before her diagnosis, Elizabeth had purchased a \$25,000 Flexible Choice Cancer policy which paid her 100% of her \$25,000 selected benefit amount to help pay her expenses as she received treatment.

Ten years later, after treatment and a successful recovery, she was diagnosed with cancer a second time. Because she had added the cancer recurrence benefit rider when she first purchased her policy and had not received additional advice or treatment, she received another \$25,000 (100% of her selected benefit) following her second diagnosis.

# Heart Attack & Stroke insurance

The costs associated with an unexpected heart attack, stroke or other heart-related surgery can be overwhelming. A Heart Attack & Stroke policy can help you spend less time worrying about money and more time working on your recovery.

## Your Heart Attack & Stroke policy

With our Flexible Choice Heart Attack & Stroke insurance policy, you can receive a percentage of your selected benefit amount (\$5,000 to \$100,000) if you experience one of the qualifying events shown below. Benefits can be paid up to the maximum amount of your selected benefit amount.

Qualifying events	% of benefit amount payable for each event	Max. % of benefit amount payable
Heart attack	100%	100%
Heart transplant	100%	
Stroke	100%	
Coronary artery bypass surgery*	25%	
Aortic surgery*	25%	
Heart valve replacement/repair*	25%	
Angioplasty*	10%	
Stent*	10%	

\*Payable only once in an insured person's lifetime.

For example, if you selected a \$20,000 benefit amount and needed an aortic surgery, you would receive 25% of your maximum benefit amount, or \$5,000. If you then suffered a stroke, you would receive 100% of the remaining balance of your benefit amount, or \$15,000.
