Meet Elizabeth

Elizabeth is a teacher at a local elementary school. During a regular self-exam, she felt something on her breast and scheduled an appointment with her doctor. She was diagnosed with breast cancer. Three years before her diagnosis, Elizabeth had purchased a \$25,000 Flexible Choice Cancer policy which paid her 100% of her \$25,000 selected benefit amount to help pay her expenses as she received treatment.

Cancer insurance

A Cancer insurance policy can help pay for treatment costs or any other expenses. So you can focus on your recovery – instead of your financial situation.

Your Cancer policy

A Flexible Choice Cancer insurance policy pays 100% of your selected benefit amount – from \$5,000 to \$100,000 – if you are diagnosed with cancer while your policy is in force.

You can use this money to help pay medical expenses or for any other purpose.

Heart Attack & Stroke insurance

The costs associated with an unexpected heart attack, stroke or other heart-related surgery can be overwhelming. A Heart Attack & Stroke policy can help you spend less time worrying about money and more time working on your recovery.

Your Heart Attack & Stroke policy

With our Flexible Choice Heart Attack & Stroke insurance policy, you can receive a percentage of your selected benefit amount (\$5,000 to \$100,000) if you experience one of the qualifying events shown. Benefits can be paid up to the maximum amount of your selected benefit amount.

For example, if you selected a \$20,000 benefit amount and needed an aortic surgery, you would receive 25% of your maximum benefit amount, or \$5,000. If you then suffered a stroke, you would receive 100% of the remaining balance of your benefit amount, or \$15,000.
